

We are moving!

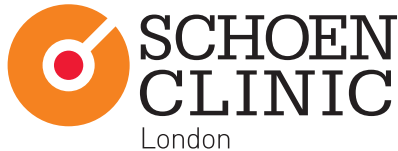

back2normal in a new location

Don't look back – join us

Our vision has always been to offer a comprehensive and holistic approach to your condition, and moving to become part of London's exciting new specialist spine and orthopaedic hospital will enable us to fully realise this vision. From June 2018, you will be able to enjoy your usual physiotherapy and spinal strengthening at Schoen Clinic London alongside access to clinical diagnosis, x-ray and imaging, and the latest therapies and surgical treatments to help get you the best outcomes.

We guarantee the same exceptional service from the same great people but in a state-of-the-art facility and with some of London's leading spinal surgeons, orthopaedic consultants, musculoskeletal physicians, radiologists, and sports physicians also on-hand.
